

PIYUSH KORI

Business Analyst | Requirements Engineering | Process Improvement | Data & Insights
Indore, MP • +91 8759785555 • piyushkori1106@gmail.com • Open to Relocation / Hybrid / Remote

PROFESSIONAL SUMMARY

Certified Business Analyst and MBA Finance candidate with 2+ years of hands-on experience across the full BA lifecycle from requirements elicitation and process mapping to stakeholder management, data analysis, and UAT coordination. Proven track record delivering measurable outcomes: 55% reduction in processing time, 22% drop in fraud-related losses, and cost optimisation below industry benchmarks. Experienced working across FinTech, NBFC, and payment technology domains in both Agile and waterfall environments. Strong practitioner of structured documentation (BRD, FRD, SRS, SOPs), visual modelling (wireframes, UML, process flows), and data tools (SQL HackerRank certified, Power BI, Advanced Excel). Adept at facilitating stakeholder workshops, translating complex business problems into actionable functional specifications, and driving cross-functional delivery teams toward defined outcomes.

CORE COMPETENCIES

- **Requirements & Documentation:** BRD · FRD · SRS · User Stories · Use Cases · UML end-to-end requirements lifecycle across FinTech, NBFC, and payment technology domains
- **Process Improvement:** 55% processing time reduction redesigned disbursement workflows by mapping as-is/to-be states, identifying bottlenecks, and implementing structured operational controls
- **Stakeholder Management:** 50+ enterprise clients managed conducted elicitation workshops and sign-off sessions with C-suite, product, technology, compliance, and operations stakeholders
- **Data Analysis & Reporting:** SQL (HackerRank certified) · Power BI · Excel queried large datasets, reconciled multi-source outputs, built dashboards and self-serve reports for business decision-makers
- **Agile & Sprint Delivery:** Jira · Backlog Grooming · Sprint Readiness · UAT authored user stories, managed backlog hygiene, coordinated UAT cycles, and validated artefacts prior to sign-off across Agile delivery
- **Analytical Problem Solving:** 22% fraud reduction · 18% cost optimisation translated data patterns and qualitative research into structured business rule recommendations adopted by product and technology teams

PROFESSIONAL EXPERIENCE

Disbursement & Operations Analyst

Moneyboxx Finance Ltd · NBFC · Lending · Financial Operations

June 2025 – August 2025 | MBA Internship

- **Process Mapping & As-Is / To-Be Analysis:** Independently mapped end-to-end disbursement workflows covering document verification, E-NACH mandate setup, and foreclosure procedures; identified critical process gaps and bottlenecks redesigned to-be workflows that reduced pending file processing time by 55% and improved SLA performance across the operations team.
- **Requirements Elicitation & SOP Documentation:** Gathered and validated business requirements through structured interviews with Central Credit Ops (CCO), legal, and field operations teams; translated stakeholder inputs into comprehensive SOPs and governance-ready process documentation used across the function.
- **Data Extraction, Reconciliation & Anomaly Investigation:** Extracted and cross-referenced operational data across disbursement, compliance, and audit registers; identified data anomalies, performed root-cause analysis, and implemented corrective actions maintaining data integrity across all reporting outputs.
- **Benchmarking Research & Cost Analysis:** Conducted structured industry benchmarking on write-off commission rates across the NBFC/lending sector; built a comparative analytical model validating that an 18% settlement was achievable 11% below the prevailing market benchmark directly informing negotiation strategy alongside the State Head.
- **Stakeholder Reporting & Insight Presentation:** Synthesised complex operational data into structured executive-ready reports and PowerPoint presentations for senior leadership; recommendations directly influenced workflow redesign decisions and faster loan sanction turnaround across the credit operations function.
- **Governance, Audit Readiness & Reporting Framework:** Revamped ONCT reporting framework and standardised register maintenance (cash flow, locker, courier, complaints, visitors) enhanced audit transparency, control management, and organisational governance readiness across the team.

Business Analyst Payment Gateway

The Swipewire Technologies · FinTech · Digital Payments · B2B Merchant Platforms

March 2023 – June 2024

- ▶ **End-to-End Requirements Management:** Led full-lifecycle requirements gathering, analysis, and documentation for UPI, Net-banking, and Wallet payment channel integrations across 10+ B2B merchant platforms; produced BRDs, FRDs, SRS documents, and functional specifications serving as the authoritative reference for product, engineering, and compliance teams throughout delivery.
- ▶ **User Stories, Jira Backlog & Sprint Readiness:** Authored user stories with clearly defined acceptance criteria in Jira; managed backlog grooming, sprint planning, and requirement validation sessions ensured sprint readiness and that all artefacts were validated and signed off prior to development commencement.
- ▶ **Process Flows, Wireframes & Prototypes:** Designed detailed as-is/to-be process flows, user journey maps, wireframes, and mockups using MS Visio, Lucidchart, and Balsamiq; effectively bridged the gap between business requirements and technical implementation reducing rework cycles across integrations.
- ▶ **Stakeholder Elicitation Workshops & Sign-off:** Facilitated structured requirements elicitation sessions and stakeholder workshops with 50+ enterprise clients including Dream11, Nykaa, and growth-stage startups; produced sign-off-ready BRDs and SRS documents aligned to Agile sprint cycles and delivery timelines.
- ▶ **Data Analysis & KPI Monitoring:** Queried and analysed large-scale payment transaction datasets using SQL and Advanced Excel to identify performance trends, settlement gaps, and reconciliation anomalies; produced regular cadence KPI reports and ad hoc analyses for product leadership and client stakeholders.
- ▶ **Fraud Detection Business Rule Design:** Analysed chargeback and transaction data patterns to identify fraud typologies; defined and documented fraud detection business rules in collaboration with technology and compliance teams resulting in a 22% reduction in chargebacks across the merchant portfolio.
- ▶ **Regulatory Compliance & Risk Management:** Monitored payment operations against real-time RBI regulatory requirements; proactively identified compliance risks, documented mitigation plans, and coordinated corrective workflows maintaining zero compliance breach across all client accounts throughout the engagement.
- ▶ **Cross-functional Delivery & Team Mentoring:** Coordinated across product, technology, operations, and compliance functions simultaneously; provided documentation standards guidance and work direction to junior analysts improving team output quality and onboarding efficiency.

Technical Sourcer & Talent Operations Analyst

Collabera Inc. IT Staffing · Talent Technology · Workforce Solutions
January 2022 – February 2023

- ▶ **Talent Data Management & Pipeline Analytics:** Maintained structured ATS-based talent pipeline data across multiple technology hiring mandates; designed recurring tracking frameworks and generated performance reports on sourcing KPIs and funnel metrics enabling data-driven prioritisation for hiring managers.
- ▶ **Stakeholder Requirements & Scoping:** Partnered with mid-level hiring managers to elicit role requirements, define candidate scope, and align delivery timelines; translated business workforce needs into structured sourcing briefs and pipeline prioritisation frameworks.
- ▶ **Process Documentation & Knowledge Transfer:** Documented sourcing workflows, role qualification criteria, and prioritisation standards in structured formats; reduced dependency on tribal knowledge and ensured consistent process execution across the team.
- ▶ **Multi-mandate Prioritisation & Deadline Management:** Managed concurrent sourcing deliverables across multiple business units simultaneously; applied structured prioritisation to maintain SLA adherence and on-time pipeline delivery across all active mandates.

KEY ACHIEVEMENTS

- ▶ **55% reduction** in operational processing time at Moneyboxx Finance achieved through end-to-end disbursement workflow redesign and structured as-is/to-be process mapping.
- ▶ **22% chargeback reduction** at Swipewire Technologies driven by data-led fraud pattern analysis and structured business rule documentation adopted by engineering and compliance teams.
- ▶ **18% cost outcome** secured below the 20% industry benchmark validated through structured benchmarking research and data modelling supporting the negotiation strategy.
- ▶ **50+ enterprise clients** onboarded and managed across requirement elicitation, documentation, and delivery sign-off including Dream11 and Nykaa with zero missed SLA commitments.
- ▶ **10+ payment channel integrations** fully documented with BRDs, FRDs, SRS, user stories, wireframes, and process flows serving as the single source of truth for product and engineering teams.

TECHNICAL SKILLS

BA Core: Requirements Elicitation, BRD · FRD · SRS, User Stories, Acceptance Criteria, Use Cases, UAT Coordination, Gap Analysis, As-Is / To-Be Process Mapping, Scope Management

Agile & Delivery: Jira (user stories, backlog grooming, sprint tracking), Agile / Scrum, Waterfall / SDLC, Sprint Planning, Stakeholder Sign-off, Risk & Issue Management, Change Management

Process & UX Design: MS Visio, Lucidchart, Balsamiq, Wireframes, Mockups, Prototypes, User Journey Mapping, Flowcharts, UML (Use Case · Activity · Sequence Diagrams)

Data & Analytics: SQL HackerRank Badge Certified, Advanced Excel (VBA/Macros, Power Query, Pivot Tables, VLOOKUP, INDEX-MATCH, Conditional Formatting), Power BI, Tableau (exposure)

Documentation: SOPs, Runbooks, Process Documentation, Confluence (exposure), PowerPoint (executive-grade), MS Word, Outlook, Microsoft Teams

Domain Knowledge: FinTech · Payment Systems (UPI, Net-banking, Wallet, Payment Gateway) · NBFC / Lending · Financial Operations · Fraud Detection · Regulatory Compliance (RBI) · BFSI

EDUCATION

MBA Finance | IMS DAVV, Indore, MP | 2024 – 2026 | Expected: May 2026 | Available Full-Time

B.Tech Mechanical Engineering | SRIT, Jabalpur, MP | 2017 – 2021

CERTIFICATIONS

Professional Business Analyst BAcentric

HackerRank SQL Badge • Office Automation GIAN • Common Rail Systems BOSCH
